

CORRIGENDA

Bulletin of the American Physical Society, Vol. 51, No. 5

Gaseous Electronics Conference • Columbus, Ohio

The Corrigenda is designed to complement the *Bulletin of the American Physical Society*. This list incorporates changes, additions and withdrawals that were received after the *Bulletin* was printed.* The most up-to-date changes will be displayed at a location in the meeting hall. Please inquire at registration or the information booth as to the location of this board.

TIME CHANGE

SESSION/ACTIVITY	NEW START TIME
LW2.3: Matt Foster <i>Charge Dependent Effects in Double-Photo-Ionization of Helium-Like Ions</i>	2:30 p.m.
LW2.4: Birgit Lohmann <i>Coincidence studies of electron impact ionization over the full in-plane angular range.</i>	2:45 p.m.
LW2.5: Junfang Gao <i>Ionization dynamics for electron impact ionization of H₂O</i>	3:00 p.m.
LW2.6: D.S. Newman <i>Near-Threshold Electron Impact Excitation of the Electronic states of N₂</i>	3:15 p.m.
